A Training Module With Lots of Hands-On Exercises To Give You Solid Practice at Value Stream Mapping

Value Stream Mapping (VSM) is an outstanding technique for improving business processes.

This methodology combines pictures and data to identify improvement opportunities and fixes within processes.

The technique can be used in a very wide variety of situations.

This customisable course includes :-

- Why do VSM
- When to use VSM
- Various forms of VSM
- The steps involved in VSM
- Key metrics to evaluate
- Identifying process issues
- Implementing fixes

"Can't wait to use this !" tends to be the feedback from this course.

This course is designed for people who want to make a real measureable difference to business processes.

The session is based on practical exercises.

Comprehensive course manuals are provided.
