

Lean Six Sigma Champion Training

A Flexible
Range of 1 – 2 Day
Modules

How To Manage and Support Your Lean Six Sigma Programme !

*Established in 2001,
we have become
leading providers
of training and
consultancy in the
field of
"Improvement"*

Lean Six Sigma only succeeds when senior managers provide visible, active leadership and support for the effort.

The organisation needs a clear understanding of why you are adopting Lean Six Sigma and what you expect to achieve by utilising these methods.

Green Belts and Black Belts will also need your support. They cannot successfully deliver the organisations objectives without someone championing their cause.

These practitioners need senior level sponsorship, someone to break down barriers, someone to escalate issues to, someone who has financial clout !

Let's face it – change is not an easy thing to achieve in an organisation. There are bound to be tough patches along the way. Your contribution during these times is key.

This training course explores these topics and helps managers clarify and decide how they will become Champions of their Lean Six Sigma programme.

The training can be customised to client requirements but normally runs over 1 – 2 Days.

Comprehensive course manuals are provided.

For more information please contact us.
